****Traffic Advisory****

CENTER STREET SWING BRIDGE TO REMAIN CLOSED FOR 30 DAYS

CLEVELAND — The Center Street Swing Bridge located in the Flats was closed on April 27th due to equipment malfunction. City engineers and workmen have determined that a limit switch malfunctioned and the Bridge hit the earthen embankment next to the bridge, causing one pinion shaft to shear off and cracking the other. Emergency purchase orders have been issued and repairs are expected to be completed and the bridge reopened within 30 days.

The detour route is Center Street to Washington Avenue, to W. 25th Street, to Franklin Ave., to Columbus Road back to Center Street. Detour signs are posted.

Pedestrians using the bridge are urged to walk to W. 25th Street, where RTA public transportation is available.
